

Reproductive and Maternal and Child Health

Completed Projects

Treatment support for older children and adolescents living with HIV: a household-randomised trial linked to evaluation of decentralised HIV testing and care in Harare, Zimbabwe - **Rashida Ferrand (Harare, Zimbabwe)** - Intermediate Clinical Fellowship

Community resource centres to improve the health of women and children in Mumbai slums: a cluster randomized controlled trial of a complex intervention - **David Osrin (Mumbai, India)** - Senior Research Fellowship in Clinical Science

The effects of antenatal micronutrient supplementation and current air pollution on growth and lung function in 8 year old children.

Delan Devakumar (Kathmandu, Nepal) – Research Training Fellowship

HIV associated morbidity among adolescents in Harare, Zimbabwe
Rashida Ferrand (Harare, Zimbabwe) - Research Training Fellowship

What are the relationships between the degree of pregnancy intention and key neonatal and maternal outcomes in the Mchinji district of Malawi?

Jenny Hall (Mchinji, Malawi) - Research Training Fellowship

Seroepidemiology of HepB, HepC and HIV in young adults
Therese Hesketh (China) - Post-Graduate Training Fellowship

Epidemiology and natural history of human papillomavirus infection in a cohort of Tanzanian girls after sexual debut

Catherine Houlihan (Mwanza, Tanzania) – Clinical PhD programme Fellow

The impact of HIV and antiretroviral therapy on the cardiovascular system in HIV-infected children
Julia Kenny (Lusaka, Zambia) - Research Training Fellowship

Virological response to first line antiretroviral therapy in plasma and genital tract in HIV-infected women in Burkina Faso

Andrea Low (Bobo-Dioulasso, Burkina Faso) - Research Training Fellowship

Cluster randomised controlled trial of the effect of community-based groups on neo-natal survival in Mumbai slums

David Osrin (Mumbai, India) - Intermediate Clinical Fellowship

Perinatal infection as a risk factor for neonatal encephalopathy amongst term infants in Uganda: an unmatched case control study

Cally Tann (Entebbe, Uganda) – Clinical PhD Programme Fellow

Impact of syphilis on pregnancy outcome

Debby Watson-Jones (Mwanza, Tanzania) - Training Fellowship in Clinical Tropical Medicine

Clinical epidemiology of HSV-2 and the impact of interventions against sexually transmitted infections to reduce HIV incidence in high risk women from gold mining communities in Tanzania
Debby Watson-Jones (Mwanza, Tanzania) - Career Development Fellowship in Clinical Tropical Medicine

Delivery, uptake and acceptability of HPV vaccination in Tanzanian girls
Debby Watson-Jones (Mwanza, Tanzania) - Project Grant
